This program offers two certification tracks:

1. **ServiceNow Administrator**: This certification program equips students with the skills to manage and administer the ServiceNow platform, including user management, incident management, and problem management.

2. **ServiceNow Developer:** This certification program enables students to design, develop, and deploy custom applications on the ServiceNow platform, using technologies like JavaScript, HTML, and CSS.

By enrolling in this program, students will gain access to a comprehensive range of resources, including:

- ServiceNow Platform: Hands-on experience with the ServiceNow platform, allowing students to practice and apply their skills.
- On-Demand Content: Access to a library of video lectures, tutorials, and interactive simulations.
- Now Learning Platform: A personalized learning environment that tracks progress and provides recommendations.
- Micro Certifications: Bite-sized certifications that validate specific skills and competencies.
- Labs: Hands-on lab exercises that simulate real-world scenarios.
- Virtual Instructor-Led Training: Live online sessions with experienced instructors.
- Ask Me Anything Session: Dedicated support sessions with industry experts.
- Certification Module: A comprehensive preparation package for the ServiceNow certification exam.
